Important Notice To Subscribers!

The Clipper is carrying on its mailing list a number of subscribers whose time expired during the latter part of last year. Many of these have spoken to us in regard to your delinquent account and have asked us to continue sending the paper. Others have not taken the time to come in and make arrangements about keeping the paper coming.

There are a few who will not pay for the paper if we continue sending it after the time is out. We do not know all of these, but we do know some of them and will be forced to stop many of the papers.

We need the money to buy paper and pay operating expenses. Most farmers made good crops last year and have the money to pay this small item. This special notice is being printed so that every one might see it, and be governed accordingly.

It is not our desire to stop any paper if the subscriber wants it and intends paying for it in the near future. But those who do not show enough interest to come in and see us about it, or send in a renewal, will not receive the paper very much longer. The big idea we are trying to put over is—
